

# Air Cushion Machine

## 充气机

JT-C10

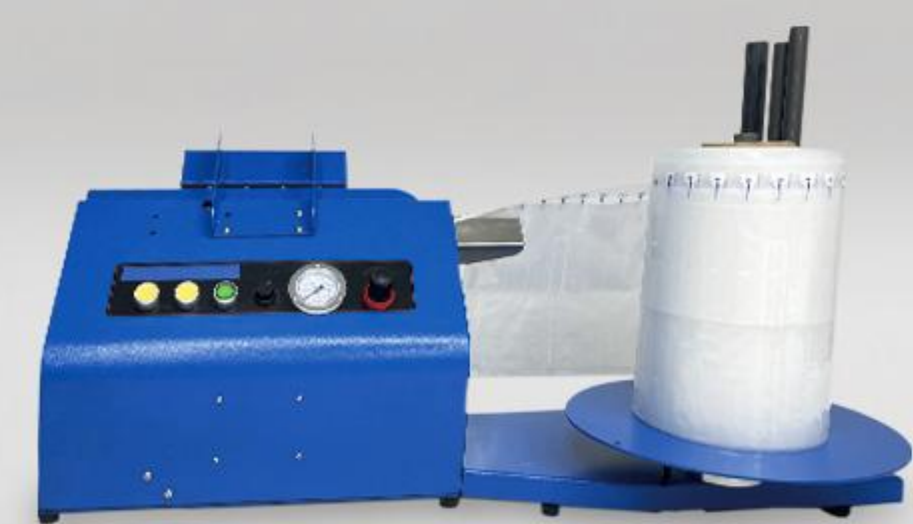

JT-018N

JT-H035

JT-Q268

JT-228

JT-168/188/208

注：以上系列设备，仅限于产品充气  
Note: Above serial machines are used for air inflation only.

浙江锦腾科技有限公司成立于2016年，总部位于浙江杭州，是国内领先的集生产和销售服务于一体的综合性生产型企业。是物流缓冲包装问题解决方案的供应商、服务商和生产制造商。

全国范围内，公司拥有3个主要生产基地中心，百余条生产线，生产流水线及配套设备全部自主研发生产，同时也是充气袋、气柱袋行业的设备提供商。自成立以来，至少服务超过3万多家国内外客户。

# Air Column Bag

气柱袋

## 产品规格 Product Specifications

| 属性 (Attributes)          | 参数 (Parameters)           |
|--------------------------|---------------------------|
| 材质 (Material)            | PE+PA                     |
| 柱宽 (Single Column Width) | 20, 30, 40, ... 80mm      |
| 高度 (Height)              | 150, 200, 250, ... 1300mm |
| 膜厚 (Film Thickness)      | 35, 40, 45, ... 100um     |
| 长度 (Length)              | 300m/roll                 |

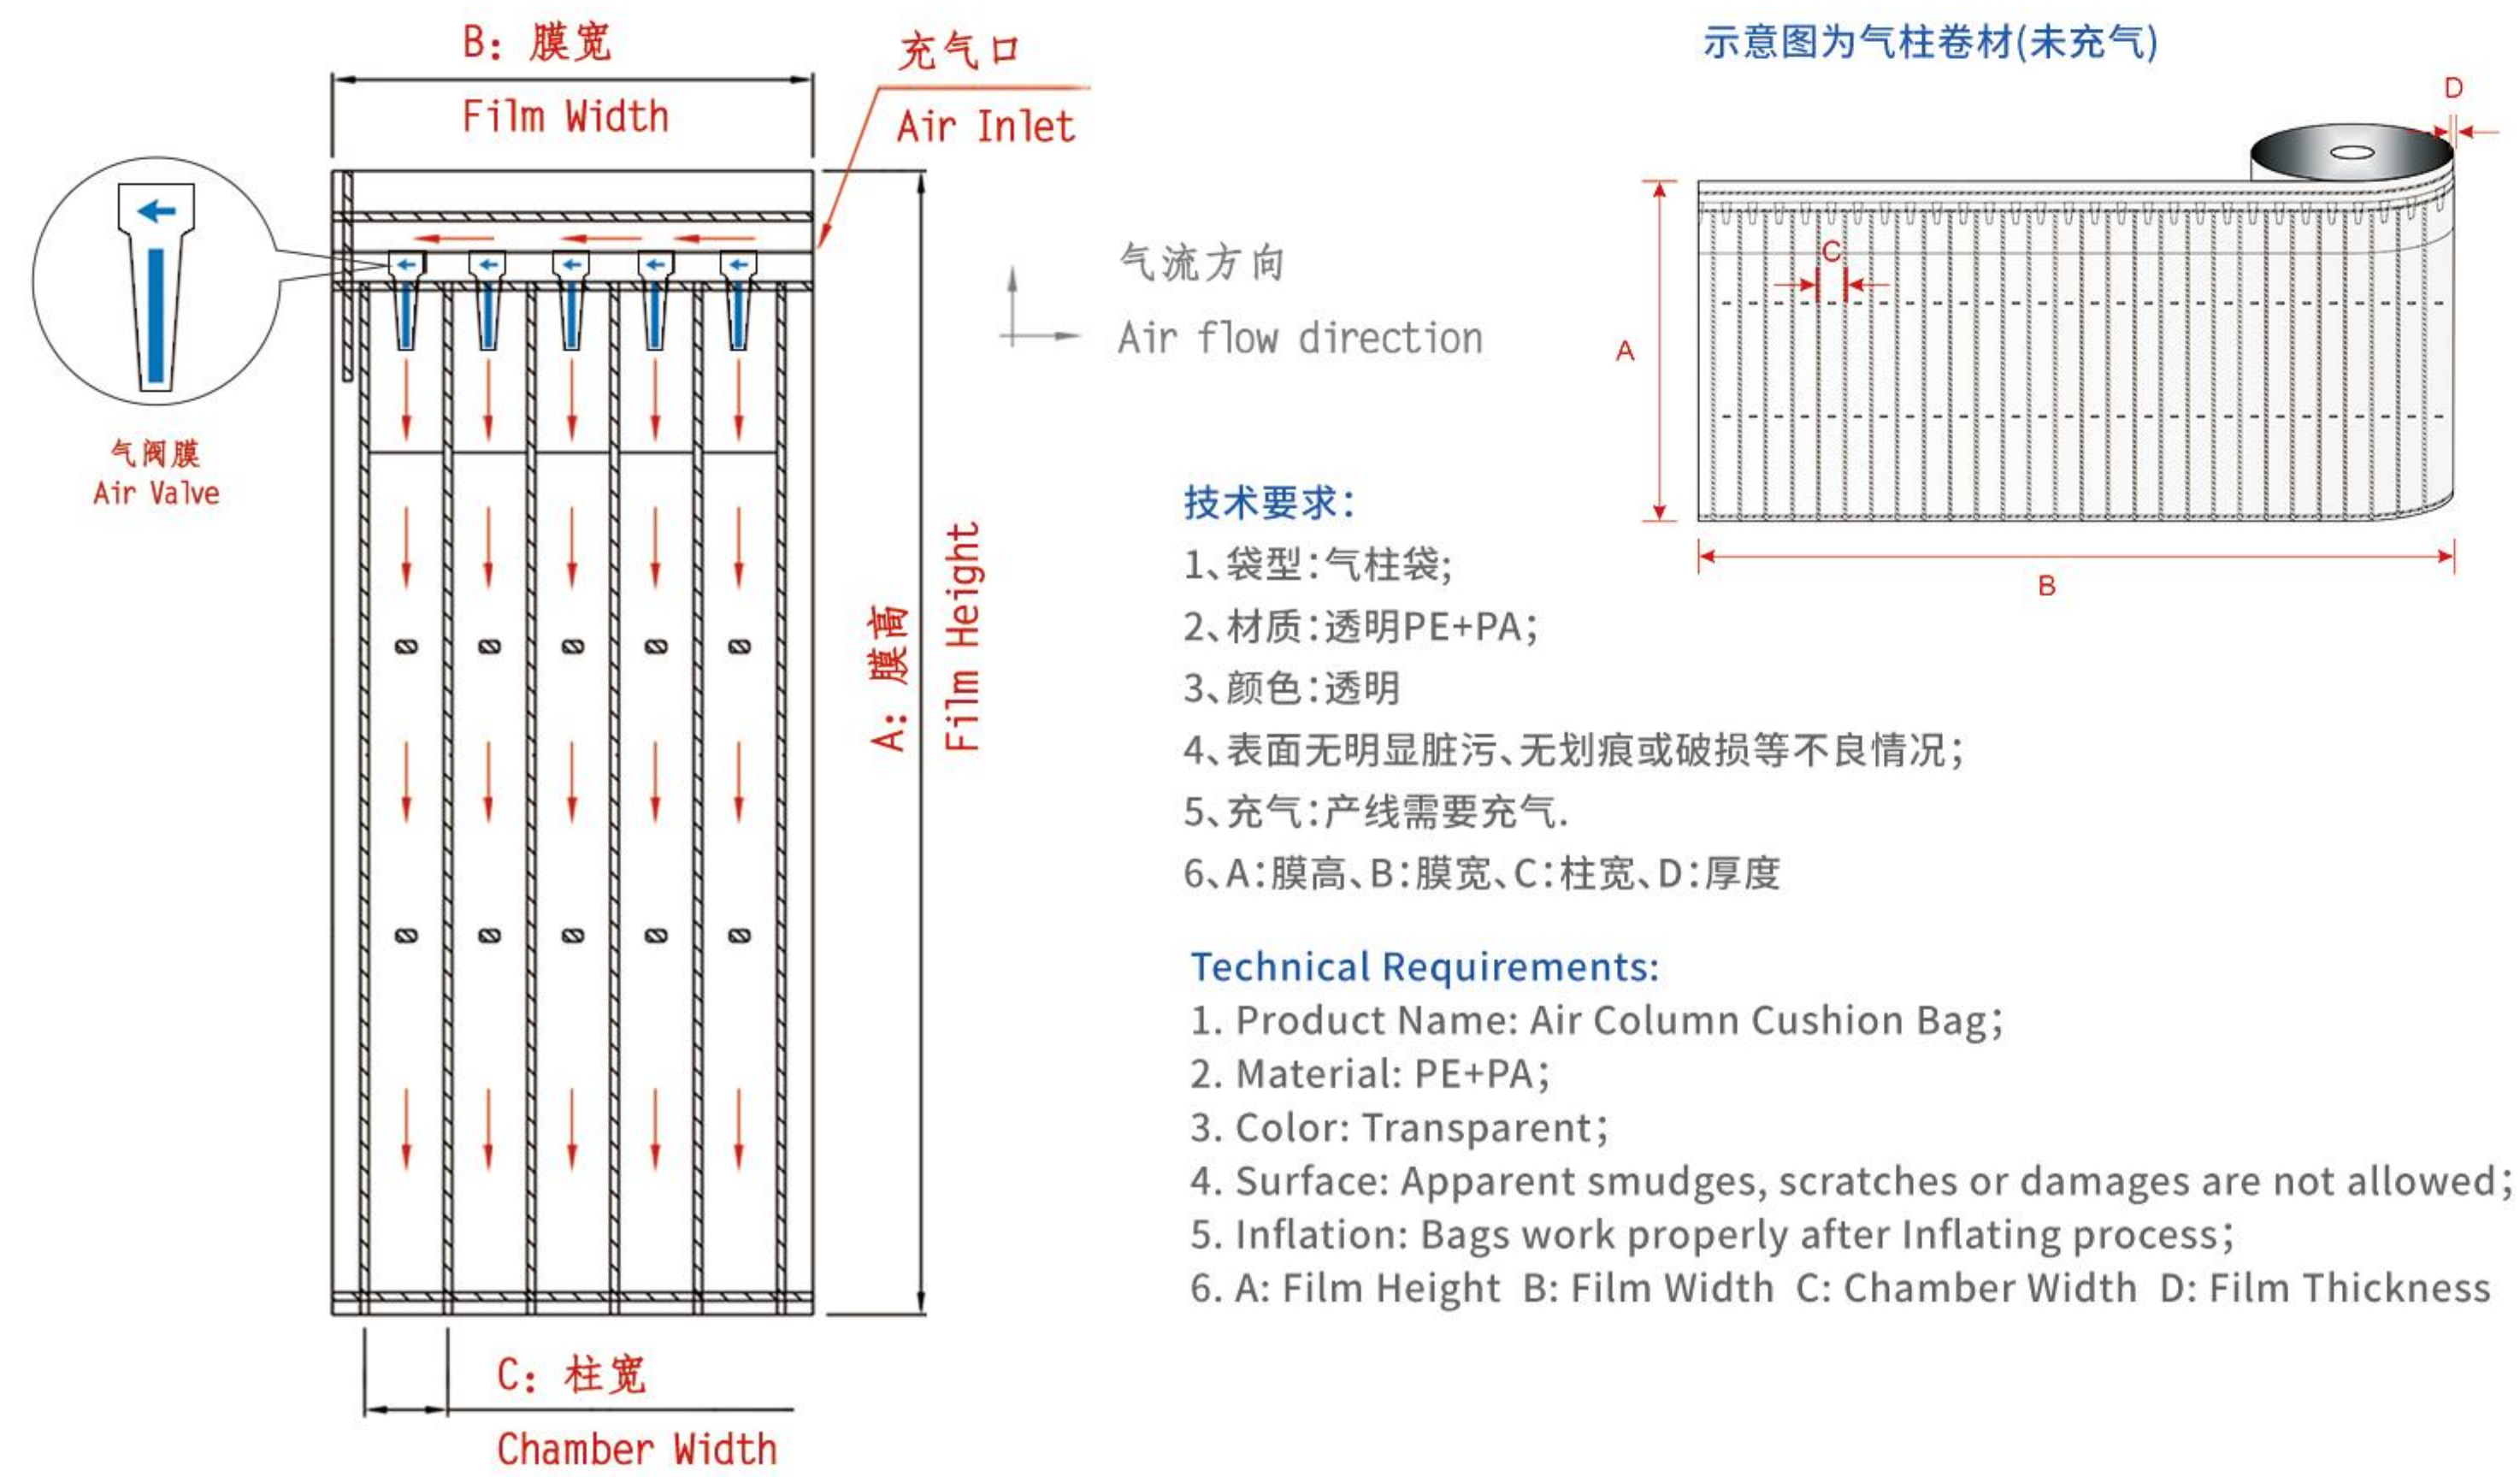

注: 非标制品可根据客户具体需求定制 (Note: Non-standard products can be customized as required by customers.)

## 应用领域 Applied Fields

## 结构特点 Cooperative Brand

- ☆ 采用单向止逆气阀专利技术, PE与PA为基本成分的高阻隔包装薄膜;
- ☆ 通过热封分隔成多个独立气室, 以空气为填充介质;
- ☆ 环保材质, 无毒无异味, 高压充气, 自动锁气, 柔韧有弹性, 缓冲性能强;
- ☆ 通过配方调整可具有防静电、避光、防潮、防伪等功能, 可根据需求设计多种造型。
- ☆ With the patented technology of one-way valve, it is high barrier packaging film with PE and PA as basic components;
- ☆ It is composed of multiple independent air chambers by heat sealing, using air as the filling medium;
- ☆ As environment-friendly material, non-toxic and odorless, it features high-pressure inflation, automatic air lock, flexible and strong cushioning performance;
- ☆ Through formula adjustment, it can have anti-static, light-proof, moisture-proof, anti-counterfeiting and other functions, and can be designed into a variety of shapes according to demands.

# Air Cushion Pillow Film

填充袋

## 产品规格 Product Specifications

| 属性 (Attributes)     | 参数 (Parameters) |
|---------------------|-----------------|
| 材质 (Material)       | PE              |
| 尺寸 (Size)           | 100X200mm       |
| 膜厚 (Film Thickness) | 20um            |
| 长度 (Length)         | 500m/roll       |

注: 非标制品可根据客户具体需求定制 (Note: Non-standard products can be customized as required by customers.)

## 应用领域 Applied Fields

用途: 作为一种新型环保包装材料, 目前已经逐步取代传统的新闻报纸、拷贝纸等填充物, 具有包装简便、清洁、经济环保等优势。主要用于皮包、箱包、手袋、纸箱、集装箱等产品、物品之间的空隙的填充和保护。

As a new type of environment-friendly packaging material, it has gradually replaced traditional news papers, copy paper and other fillers by virtue of its advantages of simple packing, cleanliness, economy and environmental protection. It is mainly used to fill and protect the gaps between products and packages and protect the products in leather bags, handbags, cartons, and containers.

# Air Cushion Bubble Film

葫芦膜

## 产品规格 Product Specifications

| 属性 (Attributes)     | 参数 (Parameters) |
|---------------------|-----------------|
| 材质 (Material)       | PE              |
| 尺寸 (Size)           | 320X400mm       |
| 膜厚 (Film Thickness) | 20um            |
| 长度 (Length)         | 300m/roll       |

注: 非标制品可根据客户具体需求定制 (Note: Non-standard products can be customized as required by customers.)

## 应用领域 Applied Fields

用途: 一种以薄膜包含空气使之形成气泡的软包装材料, 具有良好的减震性、抗冲击性及无毒、无味、防潮、耐腐蚀等优点。主要用于小体积、易碎、易损坏和部分精密物件的包装。

A flexible packaging material that contains air in the film to form bubbles, which has the advantages of good shock absorption, impact resistance, non-toxic, odorless, moisture-proof, and corrosion resistance properties. It is mainly used for the packaging of small size, fragile and some precision objects.

# Mailing Bag

快递袋

## 应用领域 Applied Fields

该系列的袋子主要应用于快递行业, 通常包装的产品包括文件、单据、资料和货物等。产品采用聚乙烯作为基本材料, 具有成本低、性能好、使用方便等特点。随着人们生活水平的提高和环保意识的加强, 具有生物可降解性能的快递袋当前越来越受到市场青睐。

This series of plastic bags are mainly used in express delivery industry for packing documents and merchandises. Adopting the polyethylene(PE) as the basic material enables the bags to have the virtues of economy, good performance and convenience, etc. With the improvement of living standard and the strengthening of environmental awareness, the biodegradable mailing bags become more and more favored by the market.
